

**Prof. B.N. Mishra**

**Distinguished Faculty**

Professor B. N. Mishra joined Delhi College of Engineering (now DTU) as Assistant Professor in 1968 and was promoted to the position of the Professor in 1971. He holds Bachelor, Master's and Ph.D. degrees in Electronics and Communication Engineering. He is an Member of IETE, IAS and Fellow of IETE, India.

Professor Mishra has made significant contributions in both academics as well as administration of engineering education through his career. He set up and organization of the Faculty of Technology for Delhi University. He also established the Committee of Courses in various disciplines and Board of Research Studies as per the statutory provisions.

As the Dean, Faculty of Technology and Chairman, Board of Research Studies, he launched the following Ph. D. program in engineering for the first time. He, himself, is the first doctorate in Engineering from Delhi University.

His innovative approach made laboratory work a unique learning experience for the students. He made significant contribution to several theory courses – Microprocessors, Microcomputers, Computers, Control Systems and Microwaves.

He was instrumental in reforming the overall approach for examinations making them more effective for the students as well as the faculty.

Professor Mishra completed an assignment abroad from 1979 to 1982. He was appointed as the Founder Director, IIT (now known as IIT) in 1983. He established the Institute from scratch and led it to an impressive position of respect and recognition in the academia, industry and society. He designed a Profile of Growth document for the development of IIT, which was duly studied and accepted by the Govt. of Delhi & Govt. of India. IIT has followed this document and developed into every respected institute.

He had a brief visit at the OJSP University, where he laid down the basic principles of Teaching and Evaluation.

He has been the Founder Director of Maharashtra Agri-culture Institute of Technology which again is the best Institute in the OJSP University, Delhi. Presently he is serving there as Director (Enrichment).

He has a large number of publications and quality research to his credit. He started the norms for training programmes with Auburn University, USA and the same has been adopted as the majority of collaborative programmes by the AICTE.

He was the Founder Chairman of Programme Co-ordination Committee for establishing the Institute of Information and Communication in the South Campus, University of Delhi, which is one of finest centres in Delhi University.

He had been advisor to the Institution of Engineers for preparing video courses and is Emeritus Fellow of AICTE. He was a member of delegation to UK for a rise initiative in Science and Technology between India and U.K. in 1985. He was a delegate for IIT conference at MIT Bangkok.

He has recently published an E-Book "Unswain" in English (originally written by Dr. K. J. Unswain) which is a master piece in literature. He is working on a novel in English other work of Research (Novel) Dr. Rameshwar Singh Dr. K. which would soon be published.
